8:32 to 10:25

Time	Speaker	Words (verbatim machine transcript, uncorrected)
8:32.38 to 8:37.58	Det. Trull	Yeah, I mean, I'm not reading the email, so, I mean, I go to it, you know, bullet-by-bullet
8:37.58 to 8:40.94	Det. Trull	bullet-by-bullet to be the robbery that happened on the day, yep, that's true,
8:41.20 to 8:54.56	Det. Trull	personally, so the only, the first thing here that, um, they had said that you had told them that the, uh, the robbers had gained access via the trail up
8:54.66 to 9:04.86	Det. Trull	which we do not know, but I do know that there is a trail that runs behind their house pretty close, and they also have that neighborhood.
9:07.76 to 9:16.10	Det. Trull	So, that would be the only thing in that first section there that we're not 100% sure on.
9:16.42 to 9:21.02	Det. Trull	If I had to make a very educated guess, I would say it was access to the wooden [machine reading; "wooded" expected; check by ear] trail.
9:21.02 to 9:33.38	Det. Trull	Just because it was the middle of the day and you have multiple people roaming the neighborhood versus not multiple people roaming the trail, you see what I'm saying?
9:34.60 to 9:43.20	Det. Trull	So definitely someone would have, in my opinion, someone would have seen them and hopefully have called if they suspected something suspicious.
9:43.20 to 9:51.02	Det. Trull	but that part, we're not 100% sure on how they were able to get access to these services
9:51.02 to 10:00.20	Det. Trull	up, but like I said, that would be the only thing that I would clarify, I guess.
10:00.32 to 10:04.92	[speaker uncertain] (likely Mrs. Comiskey)	Yeah, I'll want to send them a note to clarify that then, that particular point.
10:04.92 to 10:14.64	Det. Trull	I told them when I talked to them that I was the only thing on this cause they had to ask
10:14.64 to 10:20.38	Det. Trull	me questions about what you had said and if I disagreed or agreed with everything.
10:21.82 to 10:25.18	Det. Trull	I was like, I mean, all that stuff is stuff that I said.

11:52 to 13:33

Time	Speaker	Words (verbatim machine transcript, uncorrected)
11:52.70 to 11:54.14	Det. Trull	I'm just telling you, it's my statement,
11:54.16 to 11:56.24	Det. Trull	but what I've investigated for the past year and a half,
11:54.30 to 11:55.98	Det. Trull	but what I haven't been seeing it around the past year and a half. [alternate machine reading of the same audio as the preceding line]
11:57.26 to 11:59.42	Det. Trull	that these robberies that do occur,
12:00.52 to 12:03.40	Det. Trull	and we have noticed that they have accessed
12:04.80 to 12:07.38	Det. Trull	wooded trails and other neighborhoods
12:08.32 to 12:10.24	Det. Trull	that didn't back up to one another,
12:10.54 to 12:11.76	Det. Trull	especially the other neighborhoods,
12:12.02 to 12:14.02	Det. Trull	but we've seen that a lot.
12:14.20 to 12:15.82	Det. Trull	We have some instances where they would
12:16.40 to 12:17.86	Det. Trull	go through wooded trails as well,
12:18.46 to 12:21.20	Det. Trull	but yeah, if they say that there's no risk,
12:21.20 to 12:23.24	Det. Trull	then I would believe them.

12:23.50 to 12:26.34	Det. Trull	I mean, because they're out there every day, and I'm not.
12:27.42 to 12:31.06	Det. Trull	I can only tell you what I see here in front of my desk
12:31.06 to 12:33.32	Det. Trull	and just the follow-ups that I do
12:33.32 to 12:36.32	Det. Trull	and the information that I've obtained over,
12:36.78 to 12:41.78	Det. Trull	like I said, the few years working these kind of crimes.
12:42.22 to 12:45.98	Det. Trull	But I will tell you that most of the break-ins
12:45.98 to 12:49.78	Det. Trull	they do happen, the suspects will.
12:48.18 to 12:55.56	Det. Trull	The suspects will basically park in another neighborhood and then walk through the woods [overlapping machine reading; repeats the end of the preceding line]
12:55.56 to 13:00.98	Det. Trull	or cross a tree line or something, you know, stuff like that, wherever they need to be.
13:01.18 to 13:04.26	Det. Trull	But again, it's not only Marvin, it's everywhere.
13:05.38 to 13:13.12	[speaker uncertain]	Yeah, I've looked at the map and can see it's clearly a formula that is working because
13:13.12 to 13:18.32	[speaker uncertain]	When I look at a map, I'm like, oh, there's the cul-de-sac behind the house, and there's the trail that they crossed.
13:18.94 to 13:23.48	[speaker uncertain] (likely Det. Trull)	It's crazy. Since we get a house break in, I always expect that they're involved.
13:23.70 to 13:27.40	[speaker uncertain] (likely Det. Trull)	I said that's the first thing we do, and we go straight to the cul-de-sac to see if anyone has cameras.
13:27.96 to 13:32.90	[speaker uncertain] (likely Det. Trull)	And, of course, no one has any cameras or they wasn't turned on, and they do have cameras.
13:33.20 to 13:34.74	[speaker uncertain] (likely Det. Trull)	It always works out that way.

Adjacent lines, outside the windows (the detective defers to the Marvin deputies)

Time	Speaker	Words (verbatim machine transcript, uncorrected)
11:39.22 to 11:41.10	Det. Trull	I mean, I'm a detective that works.
11:41.84 to 11:44.94	Det. Trull	I also have other cases in other areas as well.
11:45.74 to 11:48.36	Det. Trull	So, for someone that's on the road every single day,
11:48.54 to 11:50.52	Det. Trull	if they deem that there's no risk on the greenway,
11:50.72 to 11:52.14	Det. Trull	then I would believe them.
13:34.74 to 14:00.74	Det. Trull	Um, so, um, I definitely just, I think this has been made a bigger deal than what it needs to be in my opinion, with wooden [machine reading; "wooded" expected; check by ear] trails, but, um, but yeah, as far as, um, everything going on, I'll refer all this to the proper people and, um, I'll let the Marlin deputies...

Quiet passages are under-transcribed at about 3:50 to 4:14, 4:57 to 5:23, 8:35 to 8:55, 15:06 to 15:21, and 17:05 to 17:30. The recording does not mention security footage or any particular group of offenders. The words quoted from 10:32 are outside this excerpt.
