

The Wingfoot Drive home and the trail: map

THE FAMILY'S STATEMENT [ALLEGED; MAP TO BE VERIFIED AGAINST COUNTY GIS]. NOT A SURVEY. NO HOUSE NUMBER, PARCEL NUMBER, OR NAME IS GIVEN: ONE HOUSEHOLD SHOWN IS A CRIME VICTIM.

The premise. On February 20, 2024 the Village Manager wrote that the Village "reached out to its assigned deputy Tommy Gallis" and that "after his analysis, he did not find it reasonable that in/egress was derived from the trail as the home in question was several houses back from the trail itself"; and "there are no direct verbiage on the police report linking the trail to the actual crime" (Village_Production_Feb_20_2024_Amos_to_UCSO_chain.pdf).

The family's position. The premise is false. The rear of the Wingfoot Drive home faces the woods. From the rear entry it is a clear, walkable line through wooded ground behind the home and a neighboring lot to the common open space in which the trail runs. No house stands between the home and the trail. "Several houses back" counts lots along the street, not what stands between a back door and the woods. The detective, on the recording: "there is a trail that runs behind their house pretty close" (8:54) and "If I had to make a very educated guess, I would say it was access to the [wooded] trail" (9:16) (Trull_Call_Transcript_Excerpt_8m32_to_10m25_and_11m52_to_13m33.pdf, p. 1).

Map. Union County GIS parcel lines and building footprints (Structures layer, retrieved August 17, 2026; parcel dataset published September 11, 2024); green is wooded ground classified from a registered base map (registration RMS about 3 ft). The black line is the shortest line from the rear wall of the home to the open space boundary, about 91 ft (22 ft of yard, then woods); the red dashed line is the walk as the family drew it. The trail's tread inside the open space is not mapped by the County, so no distance to the tread itself is stated.

To verify. Union County GIS parcel viewer (parcels; Structures layer), the recorded trail easement and its alignment survey, and the Sheriff's case file. The incident report gives only the 500 block of Wingfoot Drive.
